PROJECTS

Clothly

clothes shopping website

Clothly is an online cloth-shopping website offering users a seamless shopping experience.

- **Features:** User authentication, Admin Dashboard, Multiple Pages, Wishlist Page, Add Card Page.
- **Tech Stack:** React, Redux, Tailwind CSS, Framer Motion
- **Nature and Duration:** Clothly was a collaborative project with a team of 5 members.

Plate Crafters

vehicle license plate creation

specializes in custom vehicle license plate creation, featuring user authentication, an activity dashboard, cart management, and payment processing.

- **My responsibilities:** Designed the product page, led the development of a single product feature, created the landing page carousel, and managed the overall product design.
- **Tech stack:** React, Chakra UI, Swiper JS.
- **Nature and Duration:** An individual project completed in 3 days.

Money Mingle

Money Convert

facilitates currency conversion with user authentication, an activity dashboard, alerts, payments, credits, and debates.

- **My role:** Led product page and landing page design, created the carousel on the landing page and supervised the overall product design as a team leader.
- **Tech stack:** HTML, CSS, JavaScript, Swiper.js.
- **Nature and Duration:** Collaborative project with 5 members, completed in 5 days.
